Thursday, March 11, 2010 (5:30 PM - 9:00 PM)

### Lenses at Length

#### Wolf University Classroom (5295 South Broadway)

Now that you have a new DSLR. What lens will capture those perfect vacation photos for you? What lenses are made for those sports pictures you always wanted to take? How can you understand the differences between all those lenses you're looking at? For many SLR owners the equipment that matters most, the lens, is the one they are the most confused about. We will demystify this important aspect of photography, so you can be sure you have just the right equipment for the pictures you want to take. Or, select that gift for your favorite photographer!

Limited To the first 80 people to register

Saturday, May 8, 2010 (12:30 PM - 2:30 PM)
